

Mentorship Training Program

AMPLify supports non-profit organizations serving youth survivors of trafficking and sexual exploitation in creating a mentorship program designed specifically for them. As a leading expert in the field of mentoring for this unique population, Allies, Inc believes every survivor is worthy of healthy love, respect and community.

Through a survivor-centered, trauma-informed and evidence-based mentoring model, we support survivors in sustaining their freedom from exploitation.

We desire to bring this support for survivors to your community and want to help your organization launch a safe, effective and sustainable mentoring program.

Each tier on the next page contains an element of in-person and online training, coaching sessions and individual consultation that will take your team through elements of program design, mentoring best practices and program implementation.

- leadership development
- core values and strengths assessments
- trauma
- mentoring best practices
- human trafficking trends
- resources (local and global)

Testimonials

“We were totally blown away by the depth- detail- and organization.”

- Pilot organization

“Allies has already spent seven years praying through times of error, and finding the solutions to improve the quality of service. We feel thankful that we have been granted the opportunity to avoid major pitfalls because of this time-tested model.”

- Pilot organization

“It was a God-appointed miracle when Audrey called me to share about their vision to train other organizations. Now, we are able to follow God’s path for us without worry, striving, stress, or fear of failure. I really want to thank all of you. Thank you for seeing our eagerness. Thank you for everything you’ve done to push us through. We’ve got kids and mentors in Kentucky who are in good hands because of your “yes”.”
